

THE HHC-1 & HHC-IR REMOTE DAMPER CONTROLLERS

- Provide battery power for the actuator, and the means to precisely adjust the damper.
- NO hard wiring or building power is ever needed.
- Wireless remote damper adjustment saves time and labor because a single balancing technician can adjust the air flow at the air outlet, even when the controller and damper may be a 100 feet away.

THE HHC-1 IS AVAILABLE IN TWO VERSIONS . . .

HHC-1 (Basic)

- For local-only control, via the 4 ft power cord.
- The red rocker switch adjusts the damper for precise air flow.
- A multi-color LED gives visual indication of the operation

or

HHC-IR (Enhanced)

- Provides the same basic, local-only control, PLUS
- **Wireless remote damper adjustment** via an iPhone, iPad, iPod, MB, Mini, or compatible Android BT4 Smart Devices**
- Very helpful when using the CR-1 or RP series remote panels.

Shown here with the iPhone 5 and Google Nexus 7

Download the free ZS app on iTunes and Google Play

The Screen Graphic

SIMPLE, TWO-STEP START UP . . .

- First, press the HHC-IR's Red Rocker Switch for a second to start the Bluetooth search.
- Open the app on your smart device** and wait a few seconds for the 'lock-on' to complete.
- The green 'Ready' circle at the top of the screen will glow.
- Touch the 'arrows' on the panel to control the CW & CCW movement of the damper

** iPhone 4S or newer; Bluetooth 4.0 and Android 4.3 or later

Even a well-designed HVAC system may perform poorly and waste energy if not properly balanced. The ZipSet System's unique approach to the air balancing task insures a quick, precise and economical solution.
